

Hurricane Nicholas Press Release 09/17/2021

MASSIVE CLEANUP COLLABORATION TO HELP BRAZORIA COUNTY HOMEOWNERS RECOVER FROM HURRICANE NICHOLAS DAMAGE

Angleton, Texas, September 17th, 2021 – The Brazoria County Long Term Recovery Committee and Crisis Clean Up are collaborating with Brazoria County in a massive “Clean Up” effort. This effort has begun today to assist Brazoria County residents in cleaning homes and removing debris as a result of Hurricane Nicholas. Homeowners who have few resources and abilities, will be able to request assistance in the removal of fallen trees, limbs, interiors of home water damage, and other storm-related damage.

Residents in **Brazoria County** can call the “Crisis Clean Up” number **(979) 217-3791 to request assistance** to clean up their home and/or debris. Home cleanups will take priority between the two. Client information will then be shared with a network of volunteer organizations. These organizations will coordinate cleanup with homeowners and will ultimately deploy their volunteers to homeowner locations to assist in clearing the debris and removing interior water/storm-related damage.

“Hundreds of residents across the region have suffered tremendous damage during this past week,” said Gloria Luna, Chair for the Brazoria County Long Term Recovery Committee (BC-LTRC). “Homes flooded, houses damaged due to fallen trees, and residents displaced. These are devastating circumstances, and we can come together as a community to help these people recover and rebuild, so they can return to safe and clean homes.”

The “Crisis Clean Up” line opens at 3 pm today and will operate Monday-Saturday, 9 am – 8 pm, and Sunday, 1 pm – 6 pm. Homeowners can register for assistance through the “Crisis Clean Up” number for the next fourteen days until Friday, October 1st, 2021.
